

Novecom is an innovative company that designs and develops software-based business solutions which integrate hardware and software systems into a central platform to optimise business processes. We specialise in solutions for the mining, industrial, defence and environmental industries. Based in Newcastle, we offer excellent employment opportunities.

Service Technician

Summary

Advitech is seeking a certificate qualified technician to undertake field work on remote monitoring systems. The ideal candidate will have skills and/or an interest in electronic systems. This is a new position due to increasing workload within our expanding operation.

The Role

The role will involve the following key activities:

- Assistance with the maintenance of remote environmental monitoring equipment
- Collation and analysis of monitoring data
- Working as part of a small team dedicated to customer support
- Some overnight travel

Essential

To be successful, you will possess the following:

- Certificate or equivalent qualification in environmental technology, electronics, communications or a similar field
- A desire to learn and develop new skills
- Demonstrable customer service focus
- Strong work ethic
- Commitment to safe work methods
- Willingness and ability to undertake overnight travel
- Strong communication skills
- Proven problem solving and data analysis skills
- Effective time management skills
- Current drivers' licence

Desirable

The following additional skills would be advantageous:

- Interest in electronics, communications, industrial technology and/or computing

Position

Permanent Full Time
