

# Design and Drafting Services

## Scalable Solutions for Design & Documentation.

### Your complete drafting & design partner

Advitech offers tailored design and drafting services to meet the needs of businesses of all sizes. From concept development to asset lifecycle management, our scalable service tiers ensure you receive the right level of support, quality, and control.

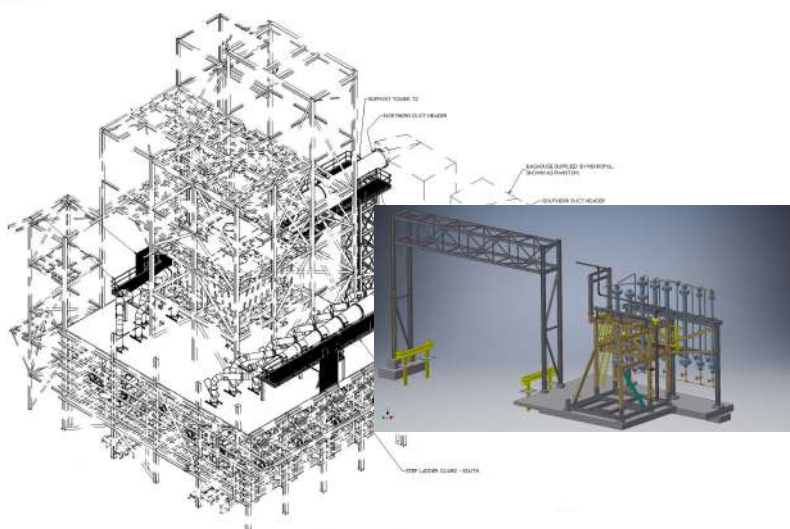

### What's included in every plan

At Advitech, we understand that every business has unique drafting and design needs. That's why our service plans are built to deliver consistent quality, flexibility, and control—no matter your size or industry. Each plan includes a comprehensive suite of features designed to streamline your workflows, ensure compliance with Australian Standards, and provide secure access to your documentation.

- End-to-end design and drafting service management
- Creation and revision of 3D models and drawings to Australian Standards
- Configuration and change management (revision tracking, versioning)
- Documented quality assurance checks and approvals
- Secure cloud-based repository for released drawings
- Client portal access with secure login credentials

### Why choose Advitech

Advitech delivers expert design and drafting services backed by industry standards, scalable support, and secure cloud-based document management. Bringing 30+ years of industry experience and ISO accreditation, whether you're a small team or a large enterprise, we provide the precision, flexibility, and reliability you need to manage your design assets with confidence.

# Flexible Plans

## Choose the right tier for your needs

Our pricing structure is designed to be transparent and scalable, offering flexible options for occasional support, regular drafting needs, or high-volume, fast-turnaround projects. Whether you're a small team or a large enterprise, you can select a plan that aligns with your budget and operational demands—while still benefiting from expert service and secure infrastructure.

*Terms and Conditions apply			

# Optional Add-Ons

## Enhance your plan with specialised services

In addition to our core drafting plans, Advitech offers a range of optional services to support legacy data conversion, digitisation, and part modelling. These add-ons are ideal for clients looking to modernise existing documentation or enhance their design libraries. All optional services can be bundled with any plan and are priced transparently to suit your project needs.

Options
Legacy 2D Arrangement/Assembly Drawing to 3D Model Conversion
Legacy 2D Part Drawing to 3D Part Model Conversion
Legacy Drawing Digitisation/Creation
Library Part Modelling
*Terms and Conditions apply
